

6th scientific conference *Methodology and Archaeometry*

DEAR COLLEAGUES,

It is our pleasure to invite you to the **6th scientific conference *Methodology and Archaeometry*** which will take place on **6th and 7th of December 2018** at the Faculty of Humanities and Social Sciences of the University of Zagreb

The scientific conference Methodology and Archaeometry is being organised by the Department of Archaeology, Faculty of Humanities and Social Sciences of the University of Zagreb since 2013. The goal of the conference is to entice interdisciplinarity, critical thinking, new insights and approaches as well as new theoretical frameworks in contemporary archaeological science. Coverage of a wide spectrum of themes and scientific disciplines has resulted in papers and discussions that promote scientific issues in the fields of methodology, documentation and interpretation of archaeological data.

The interdisciplinary character of the conference brings together archaeologists and researchers from other scientific disciplines with whom archaeologists collaborate closely; and who – through their work, projects and ideas – promote new insights about the interpretation of the human life in the past.

Section Methodology

The main questions this section is aimed to address are:

1. Which documentation technique is most efficient in interpretation and reconstruction of the past?
2. Non-destructive methods used for archaeological site detection and interpretation.
3. A methodology of field surveying
4. Database in archaeology
5. 3D reconstructions in archaeology
6. Experimental archaeology
